MONEY, STOCKS AND GRAIN

Business on the New York 'Change Stagnant as a Mud-Hole in New Jersey.

A Few Ho'ders Release Their Grip on Several Eunches of L., N. A. & C. Shares-At Indianarolis Wheat Receipts Are Large.

THE BOND MARKET.

Railroad Issues Fortunately Are More Ani mated than Stocks. At New York, yesterday, money on call waseasy at 14 to 2 per cent.. the last loan

being made at 11/2, closing offered at 11/2. Prime mercantile paper, 3@55 per cent. Sterling exchange was quiet at \$4.87 for

sixty-day bills and \$4.884 for demand. The total sales of stocks were 95,082 shares, including the following: Chicago Gas, 5,700; Louisville & Nashville, 2,000; Reading, 13,700; Richmond & West Point,

4,010; St. Paul, 14,675. With the opening of the new week in Wall street there was no improvement in the condition of the market, and the dull ness has come to such a pitch that it seems impossible to most frequenters of the street to take the market seriously. The strictly professional character still remains. There is a great deal made out of the gold shipments, and to-day announcements of engagements were awaited with considerable interest on all hands, and with som anxiety on others; but the very satisfactory exhibit of the banks last Saturday should have allayed all fears of the possible influence of further gold shipments. The nclusion of the electoral excitement in England, it is believed, will show an increased interest in American securities on the part of European and especially English investors. The fluctuations in railroad stocks are now reduced to a minimum, and while a desultory trading is maintained in Reading, the grangers follow the leaders with no spirit, and the changes in quotations are insignificant. A few specialties, however, were moved about to-day, Colorado Coal being one of the strong points, while the late strength in the industrials was entirely missing up to the latter part of the session. There is, however, an increase in the business done among the bituminous coal roads in Ohio and corresponding additional earnings. The announcement of the issue of 24,000 additional shares of the new stock of the Louisville, New Albany & Chicago has caused some of the old holders to offer

shares were prominent for strength. The rest of the list is only slightly changed from Saturday, the close being dull, and larely steady. The trading reached only 63,121 listed and 11,961 unlisted. Railroad bonds were comparatively more nimated than stocks, but there was the same lack of motion in the list, though a lew of the inactive issues here and there scored substantial gains. St. Paul consols were one of the features, rising 24c, while Richmond & Danville fives rose 2 to 80; Knoxville & Ohio fives, 2 to 100 and Big Sandy sixes, 2 to 98. The trading reached

their stocks in the market. Among the in-active shares the Minneapolis & St. Louis

Government bonds were gull and heavy State bonds were neglected. Closing quota-

DRY GOODS. The demand is for goods of darker hues. The new calicoes incline to large figures. Prices are firm. Most mills have sold up to their full capacity. More dark ginghams are being displayed. Prices are about the same on these as last season. During the week several lines of imported wool dress groods have been opened. The colorings are handsome and prices low. Many mills heretofore running on flannels have, during the past year, encouraged by a remunerative dress-goods market, turned to a better class of fabrics. Many of the Loraine, Atlantic, Pacific and Manchester designs, both in all-wool and cotton warps, are very desirable. Prices of these are far below foreign fabrics, and the colorings are equally as permanent while the designs are as elaborate and varied.

The local trade is of a very encouraging nature. Canton flannels, in both gray and colored, also wool flannels of all classes. likewise blankets and yarns, are taken up by retailers with more vim than a year ago. The situation is looked upon as hopeful, and stocks are being rapidly put in condition for an active and large fall trade.

Wheat Opened Easier at 1-4c Off, but There Came a Change for the Better.

Some Confirmation for the Scary Report Ma'e Three Wesks Ago That the Indian Crop Would Be 64,000,000 Eushels Short.

TRADING AT CHICAGO.

Bad Crop Reports Advanced Corn and Pork Gained 27 1-2 Cents.

CHICAGO, July 18.-It was a buil day on 'Change to-day, anti-option rumors helping prices along the line. Shorts were good buyers, sending prices up le for wheat and corn and 250 for pork.

The wheat market opened rather easier on advices of favorable weather and easier cables, September starting at 4c off. There was an almost immediate change for the better, however, although it was not easy to discover much in the news that was particularly bullish. About the only item of this nature was the Indian shipments, which were only 480,000 bushels last week. The steady falling off in the movement from India has revived interest in the story which was so freely circulated a few weeks ago that the crop in that country was 64,-000,000 bushels less than last year and seemed to give some confirmation of it. There was good buying by a few operators, Wright, Haughey and Nash taking the most of it, while the offerings were light. Another cause for the strength was the firmness in July, of which there appears to be a considerable short interest, and there was a good demand for cash wheat. September opened at 76%c, sold up with slight changes to 774c and at noon was at 774c. July ranged at 78@78'se and December 79%@ der previous estimates, but in the inspection returns were eighty-one cars of new wheat, forty-three of which were No. 2 hard and twenty-six No. 2 red. Receipts at Minneapolis were 33 cars, and at Duluth 126. The visible supply statement showed a decrease of 691,000 bushels for the week, which further stiffened the market, September selling freely for a time at 7712c. Closing cables were stronger and reported unfavorable weather in England. All this, together with the prevailstarted to cover, forcing the price for September up to 78c. July closed at 794 c and September at 77%c.

Corn opened weak and lower, on report of free rain in the Southwest and there was free selling, which soon put September down to 47%c. But after the first weakness the market turned strong and the sellers were soon exhausted. Then came a banch of bad crop reports, which, in connection with the strength in wheat and provisions, caused a steady rally to 48% c, and at noon was about 48%c. July sold at 48%c to 50%c at the close, and September 4734 @49c at the close. The visible supply decreased 341,000 bushels.

Oats were fairly active and higher, largely in sympathy with corn. September sold from 294c to 304c; July sold from 304@ 31c. The visible supply increased 48,000

Hog products sold early at about Saturday's close, but packers and shorts soon began buying and there was a sharp advance, September pork going up from \$11.85 to \$12.0712 and closed at \$12.1212. Lard sold from 7.22120 to 7.500 and ribs from 7.5214c to 7.65c, these prices being for September delivery. The leading futures ranged as follows:

DAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspaper. Its primary object is to publish the news, and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a news paper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.
